

Question: What types of shower chairs are available?

Answer: Static Models:

- **Freeway T20 Moulded Shower Seat Chair:** Available as a static model or with castors.
- **Freeway T30 Free Standing Shower Chair:** Features slip-resistant feet or floor-fixing options.

Assistant-Propelled Models:

- **Freeway T40 Assistant-Propelled Shower Chair:** Offers versatility for height adjustments, amputee use, and other applications.
- **Freeway Height Adjustable Shower Chair:** Allows height adjustments in 25mm increments.

Self-Propelled Models:

- **Freeway T50 Front Wheel Self-Propelled Chair:** Compact for tight spaces.
- **Freeway T60 Self-Propelled Shower Chair:** Ideal for small shower cubicles, with low braked wheels.
- **Freeway T70 Self-Propelled Shower Chair:** Includes large braked rear wheels and anti-tip bars for safety.

Reclining Models:

- **Freeway T80 Reclining Shower Chair:** Reclines up to 40 degrees and supports up to 160kg.
- **Freeway Flow Shower Cradle:** Designed for enhanced support and comfort.

Specialty Models:

- **Paediatric Chairs:** Includes reclining and height-adjustable options for children.
- **Plus-Size Models (T100):** Heavy-duty design with higher weight capacity and reinforced components.
