

What is the best bidet?

Below is a list of some of the many things people search for when trying to find the right bidet for them. But the answer to all these searches is Bidetsy.

No installation is needed for this large capacity portable bidet (muslim shower / shataf / lota). It is designed to fit next to your toilet in your bathroom, with no plumbing required. Excellent pressure, enormous 20L capacity and easily transportable. Order it, place it, use it. Made in London and made to last. Great for renters and those who don't want to renovate. Doesn't leak like those attached to your home mains and more powerful than USB charged bidets.
