

## Why use a commode instead of a toilet?

---

A **commode chair** is a practical alternative for individuals with limited mobility or health conditions that make bathroom access difficult.

- ✔ **Easier Access** – Can be placed bedside, reducing the need for trips to the bathroom.
- ✔ **Increased Safety** – Helps prevent falls with sturdy armrests and height adjustments.
- ✔ **Versatile Use** – Works as a standalone toilet or over an existing one for extra support.
- ✔ **Caregiver-Friendly** – Simplifies assistance while maintaining user dignity.
- ✔ **Ideal for Recovery & Long-Term Care** – Useful for post-surgery, disabilities, or aging individuals.
